

Two positions available immediately

RepRisk® Sales Mandates Asset Management UK / US

October 10, 2009

Contact: Philipp Aeby, Managing Partner, aeby@ecofact.com, +41 44 350 6063

The Two Positions

RepRisk is ECOFACT's web-based tool, which is used by investment professionals and bankers to manage environmental and social risks. RepRisk is already used by a number of very prestigious clients (see website) and is expected to grow substantially in the UK and US markets.

To drive this growth in the coming years, ECOFACT would like to extend its sales capabilities in the UK and US asset management markets. We are thus looking for candidates for the following two positions:

- **Sales Mandate Asset Management UK** (preferably based in London)
- **Sales Mandate Asset Management US** (preferably based in New York)

We offer a generous commission-based package.

Candidate Profile

We are looking for an entrepreneurial highly motivated sales professional with a

- good understanding of the UK or US asset management market
- high interest in environmental and social issues in business and investment management
- preference for a very flexible role

Knowledge of responsible investment would be a plus.

The Company

ECOFACT (www.ecofact.com) is a data provider and consulting boutique specialized in the management of environmental, social and reputational risks, mainly in the financial sector. ECOFACT AG was founded in 1998 as a spin-off from a leading Swiss bank and is a fully independent corporation headquartered in Zurich.

About RepRisk

RepRisk (www.reprisk.com) is a web-based tool for assessing environmental and social issues (ESG risks), which may present financial, ethical, and reputational risks for a company or an investment portfolio. RepRisk has already identified more than 11,000 controversial companies and 2,300 controversial projects worldwide and is updated daily. RepRisk covers thousands of sources in the major business languages (Chinese, English, French, German, Spanish, Korean, Portuguese, Russian), and captures topics such as environment, natural resources, human rights, labor standards, indigenous peoples, controversial products, and in particular all ten principles of the United Nations Global Compact.
